Summary

I am a passionate and creative media student and for the last three years I have been in education to gain experience and qualifications. I am currently working towards an HND in Film and Television, I am due to receive my results in July. There are many technical aspects that I focus on within my projects such as: cinematography, editing, and directing.

Experience

Crew Member

McDonald's

Aug 2022 - present

Working in a store with a large number of employees has developed my communication and team working skills, and the high paced environment has allowed me to work efficiently in pressured situations. I have worked in all areas of the store, but what I enjoy most is working up front where I interact with customers.

Director

Kin Collective Documentary

Nov 2024 - Jan 2025

During my HND I worked with Kin Collective, a postnatal parent support group to produce a documentary. On this project I was director, it was a challenge to manage the crew in a high pressure situation but it was rewarding to overcome this, and I developed documentary the client was very happy with.

Camera Operator/ Editor

Ashley Dick Presentation

Apr 2025 - Apr 2025

During my HND I worked with Ashley Dick from Cinora. She was giving a presentation at Milton Road college and I was one of the camera operators. I learned a lot of new skills, how to film live performances, what framing to use, and how to edit a presentation.

Graphic Designer

Howden Theatre Brochure

Nov 2023 - Dec 2024

I worked apart of a team to create a online brochure for Howden Park Theatre. My main task was creating the background graphics for the pages. Communication was key. As I had to regularly inform the team my background images so they could add the appropriate text.

Videographer
BUSC Promotional video
Feb 2023 - March 2023

I have previously worked with Broxburn Football Club to create a promotional video. I pitched the video, filmed it, and then edited it for them. They were pleased with this and it was shown on their social media.

Education

HNC Creative and Digital Media
West Lothian College
Aug 2023 - Jun 2024

Foundation Apprenticeship Creative and Digital Media
West Lothian College
Aug 2022 - Jun 2023

Interests

In my spare time I enjoy practising photography, primarily nature photography. When walking my dog in the countryside, I find it incredibly rewarding when you find a great photograph in something as simple as a field. I enjoy editing photographs and creating images.

I also making TV show and Movie reviews for my social media. I like the engagement when they comment on my reviews.

To help me relax I whittle sculptures out of wood, I find this very calming and helps me develop my patience and precision.
